

LOUISIANA CONNECTION

MEXICO

FOREIGN DIRECT INVESTMENT

Mexico is a major investor in Louisiana, with two projects since 2003 accounting for over \$200 million in capital expenditure and over 450 direct jobs.

Louisiana companies have also established a presence in Mexico. Louisiana companies' five direct investments in Mexico since 2003 have resulted in capital expenditures totaling \$160 million and the creation of 400 jobs.

TRADE

With geographic proximity, a shared reliance on the Gulf of Mexico, and a long history of economic and social exchange, Mexico and Louisiana are poised to leverage increased trade flows and cross-border investment in the century ahead. Mexico was Louisiana's second-largest export market in 2016.

AIR TRAVEL: Given its location on the Gulf coast and at the mouth of the Mississippi River, Louisiana is poised for international business with transport options including six deepwater ports, six class one railroads, and an international airport with direct flights to Cancun. New Orleans also serves as a port of departure for cruises to Cozumel, Costa Maya and Progresso.
